

Frame - description, name, or screenshot	Heuristic	Feedback - heuristic + description
Connect window	Help users recognize, diagnose, and recover from errors	I'm guessing that if input server add wrong, there will be some error pro Though it is not visible right now.
Board overview	User control and freedom	it is unclear how I should disconnect server to switch to another server, I see a button
Board overview	User control and freedom	it is unclear if I can drag cards between lists
Edit card	Efficiency of user	it is unclear how I can edit the card and description, there is a pencil button does that only let me edit the title?
Edit card, Edit list	Aesthetic and minimalist design	I find the windows for input a bit too small in general
Board overview	Recognition rather than recall	It is a bit strange to me that add list is on the same box as board name
Board overview	Aesthetic and minimalist design	There is no hierarchy in elements (color of size difference), so it is difficult to visually use.
Board overview	Aesthetic and minimalist design	Why is everything so gray? It is a bit depressing
All	Consistency and standards	All good
All	Match between system and the real	All good
All	Flexibility and efficiency of user	I see that the prototype is only for basic features, if that is the case (no other functionality intended) then it is ok. then I guess many more buttons and are required...
